## WORK EXPERIENCE

### Front End Developer BrainStorm Inc.

04/2024 - Present

American Fork, UT

#### Achievements/Tasks

- Graduated from relying heavily on mentorship to confidently tackling complex coding tasks independently, demonstrating a strengthened ability to problem-solve, research, and make informed decisions autonomously.
- Proven track record of collaborating effectively with cross-functional teams, including designers, back-end developers, and QA testers, to deliver high-quality projects on schedule.
- Lead efforts to refactor existing codebases, employing innovative techniques to simplify and streamline them, ultimately boosting scalability, maintainability, and development efficiency.
- Drive quality assurance initiatives by authoring comprehensive test suites, ensuring seamless functionality and robust code coverage, thereby safeguarding product integrity and user experience.

### Junior Front End Developer BrainStorm Inc.

03/2022 - 04/2024

American Fork, UT

#### Achievements/Tasks

- Employ TypeScript to craft robust code, preemptively identifying and resolving potential bugs to ensure seamless deployment and enhance product stability.
- Drive the development and maintenance of universally applicable, reusable components, fostering consistency and efficiency across the product landscape.
- Proactively embrace code feedback as a springboard for continuous learning, leveraging insights to explore cutting-edge technologies and cultivate a dynamic skill set.
- Implement rigorous testing protocols to validate functionality and achieve comprehensive code coverage, fortifying product reliability and user satisfaction.

## EDUCATION

### Bachelor of Science in Business Management

Brigham Young University – Idaho

07/2011 - 12/2016

## SKILLS

React

TypeScript

JavaScript

Jest

Redux

Sass

CSS

REST APIs

Unit Testing

Storybook

## PROFESSIONAL PROJECT

### BBSIJobs.com [🔗](#)

- Worked freelance with BBSI, a publicly traded company with a valuation of \$6 billion and ranked as the 5th largest PEO in the United States.
- Focused on expanding expertise in React and proficiently handling API data.
- Implemented form submissions capable of collecting user details, preferred job selections, and resumes.
- Developed functionality allowing users to filter job listings based on selected criteria.
